OF-0195-87

10 August 1987

MEMORANDUM FOR: Office of Congressional Affairs

25X1 ATTENTION:

FROM:

Acting Director of Finance

SUBJECT: H.R. 2487, Federal Employees Leave Act of 1987

1. I urge that the Agency go on record in support of subject Legislation. As you know, the "leave transfer" aspect of this initiative is consistent with "Feature 12" of the Proposed Pay, Personnel Management, and Compensation System submitted by the CIA's Human Resource Modernization and Compensation Task Force. The "use of leave as recognition" is similarly consistent with current CIA efforts.

2. Admittedly features of the governmental program will have to be modified to fit the security and cover constraints of the CIA. We suggest that you share this proposed legislation with the Directorate of Operation's Central Cover Staff for their comments. Additionally, the current payroll process will require some modification to provide for the several features envisioned in the subject legislation. However, these are not prohibitive costs. Again, we urge support.

25X1
